Online Review

★★★★★

"Relvo is one of those apps you don't realize you need until it saves you from missing something unforgettable. We need Relvo all across North America! There's nothing more frustrating than arriving at the airport to fly home, only to discover that your favorite band played the night before... just two blocks from your hotel. With Relvo, those 'if only I'd known' moments become a thing of the past. It's simple, useful, and exactly the kind of app every traveler and local should have. Highly recommended!"

I already use Eventbrite (or another ticketing platform). Can I still use RELVO?

Do I Need To Sign A Contract?

Recurring events are available on eligible subscription plans. Visit our [Pricing](#) page to compare available features.

Can I sell tickets through RELVO?

Yes.

RELVO Ticketing provides a simple, integrated way to sell tickets directly through our platform, creating a seamless experience for your guests from discovery to checkout.

Every ticketed event also includes a Fast Checkout Link that you can share anywhere, social media, email, text messages, your website, and more. Guests are taken directly to your event's checkout page, helping reduce friction and making it easier to complete a purchase.

Yes.

If your event is already listed on Eventbrite, you can import it directly into RELVO to save time and avoid entering everything twice.
